

The Rose 34

A fine example of creative living spaces. At the heart of this wonderful home is the opulent kitchen, that is both modern and inviting. Spacious family zones, the alfresco and even a massive rumpus room, are all immediately accessible from this one central location.

Ample living areas abound with a formal lounge area that can easily become a media/theatre room. Spacious bedrooms, with ample storage areas, create private havens for all members of the family.

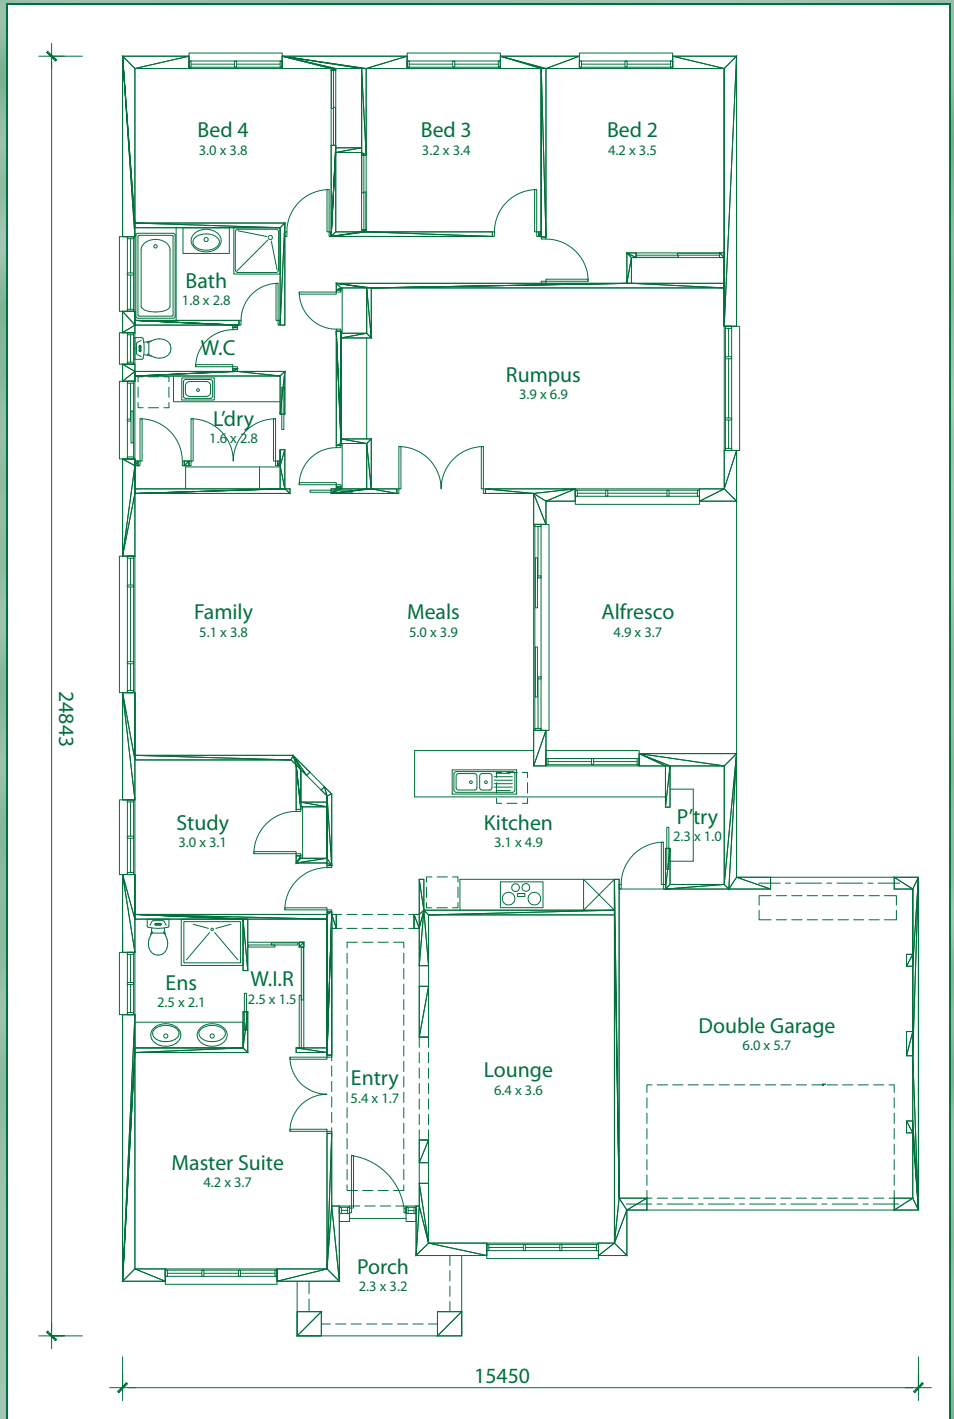

Once again proving that luxury never goes out of style, The Rose 34 delivers on all fronts.
